

Meeting the requirements in the field

Oxygen measurement

Fast and precise measurement of oxygen concentration is an important function when verifying and calibrating ventilators. This option is available for new devices or can be acquired subsequently as a retrofit set.

Carrying bag CITREX

The carrying bag is made of high-quality materials and is big enough to securely hold and transport the device along with all accessories.

Inlet pipe

Test setup tool.

USB car adapter

This adapter allows charging your CITREX device in every car.

Protection filter RT019

To protect your device from dust and dirt.

SmartLung and EasyLung

The most intelligent and cost-effective test lungs that safely test ventilators and anaesthesia machines for function and precision. SmartLung and EasyLung are extremely handy and user-friendly.

Adapter set

The adapters contained in the set allow connection of virtually any test object to the device.

CITREX mobile test set

The biomedical test set "CITREX mobile" is a certified, high precise measuring system delivered with all needed component parts.
